IPT/TIG domain
NACHT and WD repeat
neurotrophin receptor activity
NADH dehydrogenase ubiquinone 1 alpha subcomplex subunit 4
glutaryl−CoA dehydrogenase
coreceptor activity involved in Wnt signaling pathway, pl...
intramolecular oxidoreductase activity, transposing S−S b...
glutamic−type peptidase activity
neurogenic locus notch homolog protein
carbohydrate binding
glutathione peroxidase activity
negative regulation of canonical Wnt signaling pathway in...
protein−disulfide reductase (glutathione) activity
peptidyl−prolyl cis−trans isomerase activity
miRNA binding
G−protein coupled receptor activity
Lactose−binding lectin l−2−like
structural constituent of cuticle
peptidase inhibitor activity
Galactose binding lectin domain
Metalloendopeptidase activity. It is involved in the biol...
Animal haem peroxidase
calcium ion binding
metallocarboxypeptidase activity
positive regulation of epithelial to mesenchymal transition
arachidonic acid secretion
Belongs to the peptidase S1 family
Carboxypeptidase
alpha−L−fucosidase activity
Defective in cullin neddylation 1 domain containing
barrier to autointegration factor 1
Cystatin−like domain
antigen processing and presentation of exogenous peptide 37
Dienelactone hydrolase family
tachykinin receptor activity
deoxyhypusine monooxygenase activity
iron−sulfur transferase activity
bleomycin hydrolase
antigen processing and presentation of exogenous peptide ...
ephrin receptor activity
ectonucleotide pyrophosphatase phosphodiesterase
ubiquitin−like protein ligase activity
camera−type eye development
carbonic anhydrase
sequence−specific DNA binding
